Marks & Spencer improves
the sustainability of its stores

www.lighting.com >

Marks & Spencer
Manchester, United Kingdom

With 11 000 3D printed luminaires M&S **will improve store performance and generate significant energy savings.**

Printed on demand
to fit perfectly without
any need for adjustment
rings or cutting into
ceilings.

**The luminaires can be
recycled for new
3D printed designs.**
This enables M&S to be
current and topical.
